SUMMARY

I am determined in solving problems and improve the quality of life through innovation. I believe that Initiative, Creativity and Ambition are the keys to any success. As one needs to contest any opportunity that arises, find the most efficient solution to every problem and aim to become the best at what he does.

I started the very first entrepreneurship club in the UoP. I became member of Mindspace, a student Entrepreneurship & Innovation NPO and co-founded the Patras Chapter. I also work closely with the university office of Entrepreneurship. I participated in MIT Bootcamp on Innovation & Entrepreneurship and my team won 1st prize. To finance it, I run a crowdfunding campaign "Odyssey to MIT" and raised over 10.000 euro in 4 weeks.

Making is my passion, that's why I started developing a personal smart-home assistant converting my decades old apartment into a smart-home. It has also presented at ECESCON as my first paper. Furthermore, I constantly hone my people and communication skills as I firmly believe that social skills are critical to success.
