SUMMARY

I started the very first entrepreneurship club in the UoP. Instead of re-inventing the wheel, I became member of Mindspace, a student Entrepreneurship & Innovation NPO and co-founded the Patras Chapter. I also work closely with the university office of Entrepreneurship and Innovation so as to stimulate the student community and upgrade the university stance towards entrepreneurship.

Making is my passion, that's why I started developing a personal smart-home assistant converting my decades old appartment into a smart-home. This project has been also presented at ECESCON as my first paper. Furthermore, I constantly try to hone my people and communication skills as I firmly believe that social skills are critical to success.

Lastly, I am determined in achieving what i set my mind onto .Being passionate and diligent,I strive to be as productive as possible with things that motivate me.
