Odysseas is focused on solving problems that affect the quality of life and empowering people. He believes that Initiative, Creativity, Ambition & Responsibility are the key to success. As one needs to contest any opportunity that arises, find the most efficient solution, aim to become the best at what he does and lastly understand his absolute responsibility for his path in life.

He started the first entrepreneurship club in the UoP by becoming member of Mindspace, a NPO that promotes entrepreneurship in the university and founded the Patras Chapter. He also participated in MIT Bootcamp on I&E 2018 and ran a crowdfunding campaign called "Odyssey to MIT", raising over 10K euro in 4 weeks. He is a passionate maker, having developed a cheap low-tech smart-home assistant. He is actively researching in the NAM & APEL groups of the ECE dept. regarding the interconnection of IoT and Distributed Ledger Technologies. One last thing, he is devoted into "sharpening the saw", maintaining a healthy lifestyle, constant exercise and quality time for personal development.
