S T O R Y

I am determined in solving problems and improve the quality of life. I believe that Initiative, Creativity and Ambition are the keys to any success. As one needs to contest any opportunity that arises, find the most efficient solution to every problem and aim to become the best at what he does.

I started the first entrepreneurship club in the UoP by becoming member of Mindspace, a NPO that promotes entrepreneurship in the university and co-founding the Patras Chapter. I also work closely with the university office of Research & Innovation. In order to finance my participation in MIT Bootcamp on I&E, I ran a crowdfunding campaign "Odyssey to MIT" and raised over 10K euro in 4 weeks.

Making is my passion, that's why I started developing a personal smart-home assistant converting my old apartment into a smart-home. It has also presented at ECESCON as my first paper. Furthermore, I constantly hone my people and communication skills to support my anthropocentric approach to life.
